

THE MAILROOM OF
Santa Claus

2025

My dearest Isabella Rose,

There's something truly magical that I want to share with you. You see, every time something wonderful and unexpected happens, something that makes your heart skip a beat, real magic is at work. This magic is all around us, especially at Christmas, and it's made even stronger by those who believe in it.

I can see the magic that shines within you, Isabella Rose. When you believe in magic, it comes out of you like stardust, brightening everything around you. What I find most magical about you is the way you being an amazing big sister to little Thomas, always helping him when he falls down, teaching him new words every single day, sharing your toys even when it's hard, making him laugh when he's sad, and showing him how to be brave and kind just like you are. You bring light and joy to everyone you meet.

Christmas is the most magical time of the year, when the world is filled with wonder and joy. It's the perfect time to believe in magic because it's when the magic is strongest. When I arrived in Brisbane, Queensland, Australia to deliver this letter, I found my way because of your belief. Your magic guided me here, lighting the way just like the stars in the night sky.

So, the next time you feel something magical, remember that it's your belief that makes it real. Keep that magic alive in your heart, Isabella Rose, because every time you believe, you help make the world a more magical place.

With all my love and Christmas magic,

Santa Claus

P.S. I heard you've been helping your mum and dad around the house, feeding the dog every morning, and even helping to set the table for dinner - that's wonderful!
